

Digital Frequency Detector & Cantilever Controller Commercial Price List – March 2012

Item	Description	U.S. List Price
SC-FDC-1	Digital Frequency Detector & Cantilever Controller. Includes one (1) controller unit, one (1) standard controller module, one (1) software installation CD, one (1) client software license, and three (3) SMB – BNC cables.	\$ 17,900
SC-FDC-1-NFB	Negative Feedback Controller module (1 license)	\$ 1,500

Prices are in U.S. Dollars, do not include shipping and handling charges and are subject to change without notice.

Client-server Software

The Digital Frequency Detector & Cantilever Controller module and client software are included on the software installation CD. The controller unit comes pre-installed with the standard Frequency Detection and Cantilever Controller module. The client software consists of the SC-x™ Remote User Interface (SCx-RUI™), and LabVIEW™ client interface. The client software license allows installation of the client software on one (1) computer.

Negative Feedback Controller Module

The Digital Negative Feedback Controller module is delivered as a software download that must be installed on the FDC unit (see the SC-xRUI™ and SC-FDC™ User's Manuals).

Documentation

The SC-xRUI™ and SC-FDC™ User's Manuals are provided as PDFs on the software installation CD.

Warranty

The hardware and software come with one year parts and labor warranty on defects in materials and workmanship.

Customization

Custom configurations, system integration and additional features are available upon request. Please contact us at sales@scsolutions.com.
